

CHAIRMAN GEORGE ELEVATOR PITCH

60 Seconds

Hi I'm George! I'm an outrageous eccentric artist! They call me Chairman George because of my quirky musical quest in China.

I have been called everything from a musical "ambassadeur du monde" to a "troubadour savant".

I bring people together – the world over, through music – and in any language.

I can help infuse your event with a sense of goodwill and fun – and loosen up the stiffest crowd, whether they're foreign dignitaries or serious business folk.

I can relate to academic and government audiences as well – my "day" job is with Stats Can and I have a PhD. in Statistics!

I perform rock infused Greek folks songs as well as traditional ballads in a dozen languages. And I compose original songs in Mandarin.

I perform in all kinds of venues – for government, corporate, cultural and fund raising events – events like conferences, festivals, recitals, even international TV shows.

I can go solo or rock the house with my Greek blues band, Ouzo Power.

I'd love to meet with you to see how I can help you with our official entertainment needs.
